SANKET MANE

Full-Stack Developer | Generative AI Engineer

+91 9359708620 | sanketmane0407@gmail.com | Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on expertise in Python, JavaScript, TypeScript, and Generative AI. Experienced in designing and building scalable SaaS platforms, AI-powered applications, and secure REST APIs. Skilled in Large Language Model (LLM) integration, Retrieval-Augmented Generation (RAG) systems, and the Model Context Protocol (MCP), with a strong foundation in modern web technologies including React.js, Next.js, Node.js, and FastAPI. Proven ability to deliver high-performance, user-focused, production-ready software across the full development lifecycle.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL

Frontend: React.js, Next.js, Tailwind CSS, Shadcn UI

Backend: Django, FastAPI, Node.js, Express.js, REST API Design

Databases & Caching: MongoDB, Oracle, Redis

DevOps & Tools: Git, GitHub, Vercel, Postman, Linux, Docker, CI/CD (GitHub Actions)

AI / Generative AI: LLM Integration, RAG (Retrieval-Augmented Generation), Vector Databases, LangChain, LangGraph, OpenAI SDK, Model Context Protocol (MCP), Gemini SDK, Ollama.

Concepts & Practices: MVC/MVT Architecture, SaaS Development, API Security, Authentication & Authorization, Agile Methodology, Microservices

EXPERIENCE

Full-Stack GenAI Developer - RepliQ Automations | Part Time *Sep 2025 – Feb 2026*

- Architected and shipped a full-stack SaaS platform from concept to production using Next.js and MongoDB, owning the product lifecycle end-to-end.
- Built Instagram Graph API automation workflows and chatbots, cutting average response time from 10 min to under 30 sec across 200+ daily customer interactions.
- Integrated Razorpay for secure recurring subscriptions and automated billing, and drove performance optimization and vertical scaling as usage grew.

PROJECTS

RAG AI Agent *[Github]*

Tech Stack: Next.js, TypeScript, Flask, LangChain, ChromaDB, Ollama

- Built a full-stack RAG chatbot enabling natural-language question answering over PDF documents, using LangChain and ChromaDB for chunking, embedding, and semantic retrieval reducing manual documents lookup by 50%.
- Integrated the Mistral LLM via Ollama to generate context grounded responses with 90% retrieval accuracy, and designed 5+ REST API endpoints with Flask powering a responsive Next.js/Tailwind/Shadcn UI.
- Implemented persistent conversation memory and response caching, cutting retrieval latency through optimized chunking strategies.

MCP Order Tracking Agent *[Github]*

Tech Stack: Next.js, Express.js, FastMCP, FastAPI, MongoDB, Redis, Gemini SDK

- Architected an AI-powered Order Tracking Assistant using Next.js, Express.js, FastMCP, and MongoDB, integrating Gemini 2.5 Flash via MCP for automatic tool calling supporting 5+ MCP tools across order lookup, tracking, and status queries.
- Bridged Gemini function calling with a FastAPI based MCP tool server through an Express.js host layer, enabling natural-language shipment tracking and order retrieval over Streamable HTTP for real-time, multi-turn execution.
- Built a production ready backend with Better Auth, Redis caching, rate limiting, modular REST APIs, and centralized error handling, and enforcing 20 req/min rate limits to improve security and scalability.

CERTIFICATIONS

- Generative AI Certification - PW Skills x Microsoft
- Agentic AI (Hitesh Choudhary , Piyush Garg) - Udemy

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering *2022 – 2026*

D. Y. Patil Technical Campus, Talsande, Kolhapur - CGPA: 8.2

Higher Secondary Certificate (HSC) *2020 – 2022*

New English School & Junior College of Science, Shirala - Score: 72.33%
